

# Preventative Measures Against Domestic Violence (DV)

Many victims of **domestic violence by a spouse or partner** (e.g. woman who have been beaten by their husbands) have consulted with the Prefectural Police.

Regardless of the reason, violence is never tolerated.

- Don't hesitate to call 110 (emergency call) when your safety is at stake.
- To escape from violence from your husband, evacuate to a safe place as soon as you sense danger. Be careful not to tell your offender where you are going.
- If you intend to file for a protection order or submit a victim report, please document your situation as much as you can, with medical reports, photos and other evidence.

\*Protection order: An order issued by a court to the offender for purpose of protecting victims
