

Don't let your dog run loose

**You may think that your dog is well trained.
So you might think it is OK to let your dog walk off its leash in the park or other places.**

But this behavior may be a nuisance to someone.

If a dog is off its leash:

It might make someone who doesn't like dogs feel uneasy.

It might bite someone.

It might run after and injure someone.

These accidents happen because some dog owners handle their dogs in the wrong way.

The Aichi animal protection ordinance prohibits dog owners from keeping their dogs off leash.
