Childcare counselling room for parents

I am worried whether I can do it well at a nursery school or kindergarten.

There is a day that the nursery school opens their garden (entering the nursery school garden and being able to play freely). By using such a case, let your child play in the nursery school garden and you will know what nursery school looks like. You can also visit each kindergarten so let's inquire.

It is hard for me to put my crying child in a nursery school.

On the first day of admission, when your child's crying out "mommy", mom's heart seems to be broken. In the case of a child who does not understand Japanese, parents are much worried. Some children ceased to cry in a few days, others are crying even after a half year. Even if they cry when you leave in the morning, there are other children who starts to play after you leave. If they understand that they can have relationship with teachers and friends, they will find it a fun place, they will not cry eventually. Do not feel "sorry" to the child, nursery school is a fun place. Please tell your child to play a lot. Look at the situation for a little more time.

Senior mom voice 1

I'm glad I enrolled my child in a nursery school. My child is learning a lot of things through outdoor playing, handicrafts, doing various kinds of play. It also makes life rhythm well, and school lunch is safe, as it is made by considering the balance nutrition with seasoning attached to children.

Senior mom voice 2

Since my child do not understand Japanese, I first sacrificed. But, he made friends and learned lots of Japanese. I am also happy that I also made friends with other moms.
